These two connectors  
are needed only for  
heightening the rod

The drawer is adjusted

Heightening rod installation, adjustment and removal

• Please check your product packaging to make sure the included accessories etc.

## Diagram Specifications

## Vanity Care Guide

### Vanity Care

- Avoid direct contact of sharp objects as they can cause exterior damage.
- Do not expose directly to the sun as it can cause aging and cosmetic damage.
- Avoid placing hot objects onto the vanity surface.

### Countertop Care

- Kindly note that all our tops are sealed before shipping but may stain, scratch, or chip because they are porous by nature.
- Do not place hot items directly on the countertop as it can damage it.
- To prevent ring marks or staining, dry immediately.
- Place table mats beneath objects that can potentially scratch the surface.
- Use a clean, soft fabric to dust the vanity.
- Occasionally wash with a cloth dampened in warm water. If needed, apply a small amount of mild dishwashing liquid or stone soap to clean. Dry with a soft cloth.
- Refrain from using chemical cleaners, sprays, abrasive cleaners, or products that contain lemon, vinegar, or other acids.
- We advise to reseal top annually or when necessary.

### Cleaning and maintenance

- Avoid using cleaning products that contain Bleach or Ammonia.
- Please use wood- friendly products on wooden base vanities.
- To adequately clean exterior surfaces, use natural cleaning solutions or soap
